1 11 21 1211 111221 ... What's the next number?

I know you're just going to Google it. But try to figure it out. If you cheated, I'll ask to please not post the answer on the wall. If you already know it, post away, but save the explanation!

You'll feel *damned good* if you figure this out on your own. It's not too too hard.
